YALE MAKES A LL. D. OF THE PRESIDENT.

Roosevelt Now an Adopted Son of Old Eli—Crowning Event of the Bicentennial Celebration.

(BY THE NEW ASSOCIATED PRESS—P.M.)

NEW HAVEN (Conn.) Oct. 22.—The crowning feature of the Yale bicentennial celebration today was the conferring of the degree of LL.D. upon the President of the United States, Theodore Roosevelt.

On the long list of degrees conferred upon other distinguished men had been distinguished, President Hadley advanced a step or two and with great impressiveness said:

"There yet remains one name."

In an instant the great audience was standing. The President of the United States also arose, and the theater rang with cheers. The air was filled with waving handkerchiefs and programmes.

Remarking that Yale had chosen for the degree this candidate before he became President, President Hadley announced that all Yale men were now doubly honored by greeting the man and the President as a son of Yale.

Specifically addressing President Roosevelt, President Hadley spoke as follows:

"Theodore Roosevelt, while you were yet a private citizen, we offered you most worthily the degree of LL.D."

"Since in His providence it has pleased God to give Theodore Roosevelt another title, we give him on that account a double portion of welcome."

"He is a Harvard man by nature, but we are proud to think that in his democratic spirit, his broad national sympathies, and above all, his purity and truth, he will be glad to be an adopted son of Yale."

THE PRESIDENT'S RESPONSE.

President Roosevelt advanced, bowed profusely, and tried to speak. Again the audience cheered, and it was fully a minute before he was allowed to proceed. He said:

"President Hadley: I have never yet worked at a task worth doing that I did not find myself working shoulder to shoulder with some son of Yale. I have never yet been in a struggle for righteousness and decency that there were not men of Yale to aid me and give me strength and courage."

Following the speech, which was referred to the memory of a young Yale man who was hewn to death beside me as he and a great many others like us marched against the gunfire of the heights, and with those memories quick in my mind, I thank you from my heart for the honor you have done me, and I thank you doubly, for you planned to do me that honor while I was yet a private citizen."

The hymn "America" was then sung, and the audience dispersed.

NEW BUILDING DEDICATED.

At 4 p.m., Woodbridge Hall, the new administration building presented to the university by the Misses Stokes, was dedicated. President Hadley presided.

The dedicatory address was delivered by Donald Grant Mitchell, LL.D. (late Marvel).

President Roosevelt did not attend the early afternoon exercises of the celebration.

GEN. LUDINGTON'S TOUR.

HE MAKES A GOOD REPORT.

BY THE NEW ASSOCIATED PRESS-A.M.)

SAN FRANCISCO, Oct. 23.—Brig-

adier-General of the United States

army, arrived in this city today for

his inspection tour of the country.

His first stop was at Adiron-

dack resort where he had been staying

for the last few weeks.

"I have not felt better in years," said

the Secretary to a correspondent, "and

barring the fact that a vacation al-

ways uplifts a man for work, I realize

that my extended absence from the de-

partment has been a benefit."

Mr. Root found a vast amount of

business through all the routine of

the department has been carefully looked

after in his absence by Assistant Sec-

retary Sanger, a great deal of the im-

portant work which demands exclusive

attention of the head of the depart-

ment has accumulated in the Secre-

tary's long vacation. This includes

several important questions in connec-

tion with the military situation in

the Philippines Islands followed

by a month of travel in China and

Japan. Concerning his observations,

Gen. Ludington said:

"I found everything satisfactory as

far as the department is concerned,

and the affairs of the army appeared

to be in excellent condition. The men

are well cared for, and the

transport service is as good as it well could

be, and the steamers are in excellent con-

dition. There is good service between

the coast and the islands and also between

the islands.

Aubrey of Los Angeles was selected second vice-president by acclamation. Northern California captured the third vice-presidency for M. E. Dittmar of Redding.****E. H. Benjamin's reelection as secretary was unanimous. S. J. Henry's reelection as treasurer also went by acclamation.****Pence, from the special committee appointed to attend to the Oregon option, reported that the land in question has been secured with other lands as the government needs for the proposed Yuba River dam. This was effected, Mr. Pence added, drawing upon the fund subscribed to be tendered to Mr. O'Brien, and he suggested that the money be returned to the subscribers and the committee discharged. The report was adopted.****CAMINETTI from the Committee on Internal Revenue said James O'Brien had formally severed his connection with that body and also with the Debris Commission.****W. C. Ralston submitted the report of the Committee on Resolutions, urging the committee to adopt the appropriate action thereon.****The resolutions approve the establishment of a Federal department of mines and mining; judge the constitutionality of the proposed legislation which is calculated to remedy existing wrongs in all legitimate mining interests; denounce the "land pirates"; claim land to be surrendered; propose that the same is manifestly unfit for any other use than mining for oil or minerals; command Hon. Binger Herrmann's exemption from agricultural entry of the problem of the miners; and urge the locator opportunity to make technical "discovery" of mineral as precedent to location; favor the proposition that where a contest between a scrip and land claim place the burden of proof on the claimant, it shall be placed upon the scrip; approve the plans of the Debris Commission for the construction of restraining walls and fair the course of additional dams upon the tributaries of the Sacramento and San Joaquin rivers and their branches; instruct the committee on mineral lands to secure small contracts with miners; and obtain the services of the Executive Committee of the association to determine the constitutionality of the Caminetti law of the surface boundaries, particularly the surface boundaries.****We think that Pilot Le Blanc is open to censure for his action in keeping the ship at full speed; would also condemn the custom, apparently in vogue among the Chinese, of running the bridge of a steamer at night in charge of only one officer.****We also find that there is no evidence before us that the loss of the Islander was due to the intent of the master or others.****CONTEMPT CASES.****JUDGE NOYES DEEP IN MIRE.****BY THE NEW ASSOCIATED PRESS—P.M. Jeffries Training Hard for His Fight.

He Looks Tired After a Ten-mile Run.

Princeton Tigers Defeat the Orange Athletics—Penn Beat Gettysburg.

BY DIRECT WIRE TO THE TIMES:
SAN FRANCISCO, Oct. 22.—[Exclusive Dispatch.] Anybody who does not know Jim Jeffries is training hard and faithfully for his bout with Ruthen yesterday when he returned from a ten-mile gallop over the mountains. The weather was intensely hot and, as the champion went at a dog trot nearly all the way, up hill and down, at times sprinting for a hundred yards, he perspired freely, and when he came in he weighed seven and a half pounds less than when he started.

Jeffries was perceptibly tired when he returned. That could be told by a glance at his face, which was somewhat drawn and sunken. But a shower and rub down quickly refreshed him up and in the afternoon he was ready for his sparing and box punching.

The fact is that Jeffries could take off one-half weight in a run of ten miles, and that after he had to a great extent hardened himself by roaming the hills all summer, shows what a lot of superfluous flesh he carries and what a hard time he has in getting rid of it. Before the next morning he weighed nearly as much as he did before his run, and that notwithstanding that he worked for an hour or so in the afternoon and ate only the plainest sort of food.

A WORLD'S RECORD BROKEN AT MEMPHIS.

AUDUBON BOY PACKS MOST SPEEDY HALF-MILE.

Covers the Distance in a Fraction Over One Minute First—Series of Disasters at Morris Park—Several Good Horses Killed.

BY THE NEW ASSOCIATED PRESS—P.M.]
MEMPHIS (Tenn.) Oct. 22.—The world's trotting and pacing record for a half-mile race with other horses was broken this afternoon at Billings Park, when Audubon Boy went half a mile in 1:00%. This feat was accomplished in the fourth race, a 2:30 pacem event, under what is known as the "Memphis plan." The first heat at one mile was won handily by Audubon Boy.

Audubon Boy made his own pace in the second heat, which was at a mile and an eighth, and won by two length from New Richmond. In the last heat, starting from the half-mile post, Audubon Boy, 2:11, Audubon went to the front and won in the easiest sort of fashion in 1:00%, breaking the world's pacing and trotting record. Summary.

Trot: 2:28. Second heat, one mile, one mile, second heat, one mile and an eight; third heat, half mile; Audubon Boy won three straight heats in 2:00%. Don Monical, New Richmond, was second. DISASTERS AT MORRIS PARK.

BAD DAY FOR RUNNERS.

(BY THE NEW ASSOCIATED PRESS—P.M.]
NEW YORK, Oct. 22.—A chapter of accidents marred the racing at Morris Park today. Alexander Olsen, one of the jockeys, received injuries which resulted in his death a few hours later; two horses were killed on the track; others were severely injured and had to be shot; and three other jockeys had narrow escapes.

In the first race King T. fell at the water jump, directly in front of the grand stand, and broke his neck, Barry, the jockey, escaping injury.

It was in the fifth race that Olsen met with his fatal mishap. When he was picked up, he lay at once, unconscious, and when taken to Fordham Hospital the surgeons found his skull badly fractured. He lived until 7 o'clock in the evening. Olsen was 15 years of age, and was riding Timothy Foley for Mr. L. N. Anderson.

CITY FATHERS SEE THE CITY PARKS.

TO SPEND a day amid the bright-hued blossoms and the foliage of the parks, to stroll across the wide expanse of greenward and bid adieu to the tedium of official life is a pleasure that was enjoyed yesterday by the Mayor, Park Commissioners and other officials from the City Hall. Perched upon the high seats of two electric tallyhos, the party made a complete inspection of the city's breathing spots.

Shortly after 9 o'clock a.m. the start was made from the City Hall. In the first automobile were Mayor M. P. Sutton, Superintendent Mendenhall, Commissioner Dickson, McGarry and Russell, and newspaper men. In the other tallyho were seated Commissioners Crib, Mayor's Clerk Wright, Secretary Hopkins of the Park Commission, City Auditor Unger, City Engineer Stafford, City Clerk Hance and City Assessor Ward. Ed. Cowan was the chauffeur in charge of the party.

Central Park was first visited. Mr. Russell remarked that a bench is set-

in a sudden lurch to port, and landed the corporal in a pretty right in the water. But the Mayor had recently read an article on life-saving and consequently knew exactly what to do. He promptly dropped both oars overboard and rung out to the stars of the sky. In order to see the secretary rise from the flood. Grasping him firmly, the Mayor, after deal of pan-ing, landed the secretary back in the skiff, which, during the performance of the most wonderful naval evolutions ever seen in these waters.

"Oh, 'Hop!' we didn't know you were there," yelled the excited party in chorus. "We're the best, as far as fitting pride of the park board looked rufus at his new uniform. To the fact that he was wearing this regalia secretarial Hopkings attributes, in his words, to a very grave. He said he felt so buoyant in his regalia that he could not sink.

Averted that catastrophe had been averted by the combined influence of the mayor and his new uniform. Ben Ward assured himself for a soft drink, on the ground that as they were on a tour of inspection, the party

had no time to stop for refreshments.

Burlington-avenue Whist Club.

Mr. and Mrs. Mat W. Everhardy entertained the members of the Burlington-avenue Whist Club yesterday evening at their home on Burlington avenue. The rooms were artistically decorated with crepe paper, chrysanthemums, asparagus plumes and palms. Whist was played and handsome prizes were awarded. At the close of the game, Span, supper was served. Those present were Mr. and Mrs. W. Young, Dr. and Mrs. Walter T. Covington, Mr. and Mrs. Keyser, Mr. and Mrs. L. Meyer, Mr. and Mrs. Robert F. May and Mrs. J. Bradford Taylor, Dr. and Mrs. Taylor, Prof. and Mrs. Eugene Pitcher, Mrs. Benjamin and David Benjamin.

that more lawns should be planted, and there are many ways in which the parks could be greatly improved if money and men were available.

Elysian Park is the board's masterpiece, where it is hoped to create a deer park some day. The Mayor believes that the railroad company by means of a terrace could run street cars to the top of the hill, thus obviating the chief objection of inaccessibility that is urged against starting a zoo in Elysian Park.

In this park Superintendent Menden-

hall set out 160 palm trees along the edge of the driveway in the spring.

They were watered from a street

sprinkler, and every one is now thriving.

It is hoped to build a reservoir

at the top of the hill when the city comes into possession of the water plant.

EVENTS IN SOCIETY.

Miss Cornelia Fredrika Wilkinson, eldest daughter of Mr. and Mrs. E. O. Wilkinson of No. 470 Centennial street, was quietly married to Owen Lockhart Gibson of San Francisco on Wednesday evening. Rev. Ransom M. Church officiated. The rooms were darkened for the occasion, lighted by electricity and artistically decorated. The colors in the parlor were pink, the dining-room place, were green and white; library in pink, and the dining-room, where the breakfast was served, was also in pink. The bride wore a tailor-made navy blue brocade dress, with hat to match. She is the recipient of many beautiful presents and telegrams. Mr. and Mrs. Gibson left for San Francisco last night on the "Owl," where they will reside. Mr. Gibson is a prosperous young business man of that city.

Alpha Rho Sorority.

Misses Florence and Annie Bonnister delightfully entertained the members of the Alpha Rho Sorority of the University of Southern California at their home on West Thirty-eighth street, last Tuesday evening. The house was beautifully decorated with the sorority colors, olive green and gold. Progressive croquet, chess and the amusement of the evening were awarded. A well-rendred musical and literary programme also added to the enjoyment of the occasion. Misses Blanche Glibberman, Alice Hook, Anna Oberholzer, Dyan, Brady and Bertha Morrell were the guests of honor. The sorority members present were: Misses Blanche Smith, Gen. Taylor, Alice Smith, Mrs. Smith, Florence Bonnister, Annie Baister, Sarah Miller and Marian Worswick. Miss Rachael Mennell and Wilma Rives had issued invitations to the members of Alpha Rho and their friends for a party to be given at the Mennell residence, No. 2826 Vermont avenue, Friday night. The cards are the most elaborate ever gotten out by any society in the university, and the affair promises to be one of the most brilliant in college circles this year.

MINERAL REGISTERS AND MAPS.

State Mineralogists Aubrey has inaugurated an important work in connection with the oil industry of the State. It is announced he is appointing assistants to gather information regarding the oil and gas wells in various parts of the State, which will be incorporated in a register and mineral map of each county when the work is completed. Another meeting of the Producers' Association will be held today, and a general meeting of the producers tomorrow.

Matinee Euchre Club.

The Matinee Euchre Club held its first meeting of the season at the home of Miss Zelie Hartwell on West Seventeenth street, Monday afternoon. The first prize was won by Miss McCormick. Those present were: Misses Bird, McLean, Kilty, McRae, Lena, Alice Head, Herriet Crittenden, May Wood, Stella Donegan, Grace Whiteside, Luella Cook, Ruth French and Emma Lenz.

Progressive Whist.

Miss Anna F. De Frees entertained a few friends informally Tuesday evening at her home on West Forty-ninth street, No. 45 North Fremont avenue. The prize winners were Mrs. George Hull, Mrs. Clyde Taylor, Gustav Hermann and Harry Skinner. Those present were: Mrs. Harry Skinner, Mr. and Mrs. George Hull, Mr. and Mrs. Gustav Hermann, Mr. and Mrs. F. C. McKinzie, Mr. and Mrs. F. Bain, Mrs. Clasen, Mr. W. Daubenspeck and Misses Ollie and Emma Lenz.

MORE PIPE-LINE TALK.

More pipe-line talk is going the rounds in the northern oil fields. One of the latest reports is that the Standard Oil Company is about to lay a pipe line from the City of Los Angeles through sections 31 and 30 and extending to section 29, with branch lines to different parts of the field, thus paralleling at times the lines owned by companies with whom it is expected will enter the combine.

"This would make it appear as though the Standard and Associated oil companies were not working together, but rather in competition with each other."

Mr. Charles M. Burr of Avenue 23 and Mrs. E. D. Burr, recently from Alaska, started Thursday for Detroit, Mich., to remain during the winter.

The first of this season's assembly ball will be held at the Woman's Clubhouse Thursday evening, October 31.

Mrs. E. T. Park arrived home Friday, after three and a half months' visit in the East, and will be at home on Monday.

Mrs. Barbara Childs of Oakland, Calif., is stopping for a few months with her daughter, Mrs. Charles Lake.

Mrs. Barbara Murphy, who has been seriously ill for several months at her home, No. 520 Corondelet street, is slowly convalescing, and will be out in a few weeks.

CASE DISMISSED.

New York Broker Wins Out on His Refusal to Pay Stamp Tax for War Revenue.

BY THE NEW ASSOCIATED PRESS-A.M.I.

NEW YORK, Oct. 22.—It has just been learned, says the Herald that the indictment against George C. Thomas, a broker, for refusing to pay the stamp tax on sales of stock, has been dismissed.

The government, fearing it is said, to try the case, which involved the amount of \$100,000, has filed a motion to dismiss the case.

"The trial will be held in the Federal court at 10 a.m. to-morrow.

The pumping plant cost the city \$110,000, and it will enable the department to put in an acre lawn this year.

Magnificent rainbows appeared in spray from the fountain heads found in the lake when the party arrived about 11 o'clock. Another playground for the children will be put in at this park, on the eastern side of the lake. The aviary with its birds of rare plumage, and the other attractions of the park were reviewed.

Here the first exciting episode of the day occurred. The Mayor, who believed himself a much-cared-for person, ascended pedestal, locomotionless, and took a small skip, in the stern of which he ordered Secretary Hopkins to be stow his 200 pounds. THE OIL FIELDS. PRODUCERS FACING REAL SITUATION.

ASKED TO JOIN CO-OPERATIVE OIL REFINERY.

Manufacturing of Asphaltum Promises to Be Lively—Big Said to Be Coming in Again—Trying to Realize at Beaumont.

Producers of the local oil field who have been seeing through a glass darkly are now face to face with conditions as they really are, and in the present light many things have been made clear that were hard to account for before.

Since the lifting of the veil even the failure of the producers to get together can be accounted for, and that by the fact that certain members of that organization had their heads full of schemes, not the least of them being a refinery to handle the output of all that cared to come in."

The first step toward accomplishing the furthering of such a refinery scheme was taken this week when articles of incorporation were filed by the El Dorado Oil and Refinery Company, the incorporators being E. H. Groenendyke, A. Nance, Jacob P. Stockdale, C. S. Moore and James C. Price. Although these men have no connection with the local oil combine, from the fact that they are all employees of El Dorado, Elbridge & Co., it is perfectly conceivable that hands will in the future outline the movement of the incorporation, should it enter the field, as is the present intention.

The plan of the incorporation is to build a large refinery which will be capable of taking care of 2,000 barrels of crude oil a month. The capital necessary for building such a large plant will be composed of the stock of the oil field, which will secure 2,000 shares, that will carry with it a provision that the purchaser can deliver to the refinery 500 barrels of oil a month and will receive for the barrel a price not less than 75 cents a barrel.

Mrs. E. A. Summers is one of the strongest backers of the scheme, and is now engaged in canvassing among the oil men in the vicinity. The making of the proposition yesterday, she said, "The refinery will be as large as will be necessary to handle all the oil that can be secured. We will manufacture asphaltum and electric-light carbons, and for both products there is now a large market."

"I will have no connection with either the Storage Company or the latter's Storage Association, but members of the latter association will be welcome to come in if they like. I have no doubt that we will be able to erect the plant, as so far I have met with great encouragement. Many of the producers must provide their own way of disposing of the oil, and the scheme proposed seems the best presented."

"But the producers' refinery is not the only proposition of the kind now on foot. The asphalt trust is soon to take a hand in the local muddle. Word has been passed along the line that an American refinery, which is the same as the El Dorado, will be built close down for the El Dorado oil in for business in the near future. This plant has seven stills, and is capable of handling from 1,000 to 1,500 barrels of oil a day, and is not impossible that the El Dorado Transportation Company is awarded the contract for handling the producers' oil much of the product will find its way to the stills of the American plant."

Another meeting of the Oil Stock Exchange of the Producers' Association will be held today, and a general meeting of the producers tomorrow.

THE WATER BONDS.

There is no apparent grounds for apprehension as to the sale of the \$1,000,000 issue of water bonds, notwithstanding the fact that no offers were presented at the time set for opening the bids first invited. There will be no need for these bonds to go begging for purchasers. The credit of the city is excellent and the securities, at the rate of interest and the terms of payment offered, are gilt-edged. Millions of dollars are seeking profitable investment in safe securities, and these bonds afford precisely that kind of an investment. Not only will they be sold, but it is altogether probable that they will bring a good premium. Such opportunities for investment as these bonds afford are not met with every day, and whatever may have been the cause for the non-submission of bids in the first instance, the bonds will be eagerly sought, without much doubt, the next time bids are invited.

Local capitalists would readily take all the bonds were it not for the State law imposing a tax upon such securities. This tax would nearly wipe out the interest if the bonds were held within the State. But, should local capitalists purchase them, there would be nothing to prevent their reselling them to persons outside of the State. The bonds ought to sell very readily. A syndicate of local capitalists might be formed to purchase them with a view to selling them in the East later on, either in a block or divided up into lots to suit the purchasers. The local buyers, if such a plan were adopted, would be practically assured against loss, even if they should pay a small premium.

No proposition looking to the payment of a commission to any broker for disposing of these bonds should be entertained by the Council for a moment. The City of Los Angeles can sell them as readily as any broker could do so. They may not command a high premium, but certainly no commission need be paid for selling them. As for Waldron and his quibbling suit, they need give no concern. It is only a question of time when this ridiculous case will be out of court, and there is not a shadow of doubt that the city will win. Let the Council, therefore, invite bids at the earliest practicable moment. There will probably be plenty of offers next time.

AN ARCHIST THREAT.

A The Detroit Free Press published a surprising story told in that city by a prominent young society woman of Petoskey, Mich., who is visiting in Detroit, to the effect that "since the condemnation of Cogollos the wives of three of the most prominent citizens of that place have received anonymous letters threatening them with assassination. The letters state," says the Free Press, "that the recipient is one of one hundred women throughout the United States selected to be killed in retaliation for the execution of the assassin of President McKinley." The matter has been placed in the hands of the police for investigation.

The writing of these letters is probably the work of some evil-minded person, and the motive is doubtless the gratification of private spite. But the sort of reasoning which would lead to the formation of such a plot would be no more logical than the mental processes which took place in the degenerate brain of Cogollos, prior to his murder of the good President. A man must necessarily have a perverted mind before he can become an anarchist. It would be just as reasonable for anarchists to plot the diabolical "revenge" above hinted at as it was for Cogollos to conceive and execute the devilish deed for which he is soon to pay the extreme penalty of the law.

It is altogether probable, however, that we shall hear little of anarchist plottings for some time to come. The people of the United States are in no mood to tolerate their loathsome doctrines, much less to overlook any further assassinations or threats of assassination.

It is evident that Candidate Shepard is already getting some of his official clothing.

ROOSEVELT'S STRENUOUS PERSONALITY.

President Roosevelt is an exception to the generality of American Presidents in that he was born, as the saying goes, "with a silver spoon in his mouth." As a rule, the men whom the American people have honored by exalting them to the Presidency have been the children of poverty and privation, who have been obliged to work their way upward from the meanest and most unpromising surroundings. Lincoln, the rail-splitter, Grant, the tanner's apprentice, and Garfield, the barefoot boy of the towpath, are familiar examples.

But Roosevelt was born of wealthy parents. He need never have raised his hand to labor in any field of activity if he had not elected to do so. But he was a radical exception to most of the children of wealth. His whole life has been full of strenuous endeavor and of high achievement.

He disdained his advantages of wealth and social station. He would have risen to position and prominence, by reason of his own efforts and his own strength of character, had he been born in the humblest station, instead of having been born to wealth and social distinction.

Mr. Roosevelt, it may be truly said, has made the most of the opportunities which have come within his reach. For something like twenty years he has lived "the strenuous life" in a literal sense. His activities have been of remarkable range, and his achievements have been no less wonderful. He is a man both of thought and of action; a singular typical American. His administration is certain to fill a large and important chapter in American history. It will be picturesque in many respects. It will be notable for disregard of conventionalities and precedent, at least in non-essentials. There will be "something doing" during the entire period of his occupancy of the office of Chief Executive.

But it will not be for anybody to assume that President Roosevelt will use rashly or unwisely the great powers that have been committed to him through the wanton murder of the beloved McKinley. On the contrary, there is every reason to believe that the new President's term in office will be notable for wise conservation in the administration of public affairs. Conservation is not inconsistent with great activity and large achievement. The "strenuous life" will prevail at the White House, but the country will be safe and its prosperity will continue.

It is explained that the polygamous element is the dominant power in the church and in the politics of the State, and that public sentiment renders it practically impossible to enforce the anti-polygamy laws. We can readily believe that "it is almost impossible to induce officials elected by Mormon voters to enforce these laws." The circular continues:

"About one-sixth of the complaints sworn out against violators of anti-polygamy laws have resulted in arrests, and then only trifling penalties were inflicted. Notwithstanding the high pressure of the public opinion which caused B. H. Roberts's exclusion from the House of Representatives, it was with difficulty that he was thereafter convicted in Utah, and then he was fined only \$150. A change toward laxity, in the administration of these laws, has been shown in every case tried. We cite a few: Angus M. Cannon, a high official in the priesthood, president of the Salt Lake Stake of the Mormon church, who before Statehood, was fined \$300 and imprisoned six months for unlawful cohabitation, has, since Statehood, been convicted for unlawful cohabitation, being fined only \$100 without imprisonment. This small sum was all paid by sympathizing friends. Several others have been fined only \$50 on a second conviction, who before Statehood were fined for the same offense, \$300 with six months' imprisonment.

"It is conceded that Mormon church sentiments controls and directs all political action in Utah; that it holds the balance of power in Idaho, Wyoming, Montana, Oregon, Colorado, New Mexico, Arizona and California; and that it is constantly using every secret manipulation of its thoroughly organized priesthood to secure a balance of power, politically, throughout the Great West.

"Thousands of true Latter Day Saints are in all these States as the out-and-out subjects of that hierarchy. It will require the concurrence of three-fourths of the States of the Union for the passage of an amendment to the Constitution of the United States—without which amendment no Federal anti-polygamy legislation can be made—within the confines of any State—therefore it is necessary that this amendment be made now, before this growing hierarchy shall have it in its power to prevent its adoption."

"A San Francisco man committed suicide in a very 'striking' manner. He sat down in the middle of the railroad track and the choo-choo train did the rest."

"It would appear that 'Fighting Bob' Evans forgot to don his spurs when he gazed at the ship which was making the loop.

The President's Mother.

SANTA BARBARA, Oct. 19, 1901.—[To the Editor of The Times:] I notice in your issue of October 18 an article over the signature of George H. Peck on Mr. Roosevelt's genealogy. His mother was a Miss Bullock, of a prominent Southern family, and a very beautiful and accomplished woman, not Miss Marcia Vanness, as Mr. Peck has it. What the error was I am not serious about. I feel, however, that the misnomer, I suppose, is due to the fact that the two women were close relatives, and that the misnomer should be corrected.

Yours very truly,

A BRIGHT WORLD.
This old world is a bright world; it's full of love and song
That greets us in the pathway while journeying along;
There's more and more of sunshine, and less of sighs and tears,
To lighten up the pathway of life's declining years.

This old world is a bright world, in spite of what they say.
The smiles of hope surround us like flowers of the May;

The bells of heaven are ringing in tones of pure delight,
And welcome the coming of dawn's immortal light.

This old world is a bright world; the roses dipped in dew

Are sweeter in their perfume and blossoms fairer, too;

The sun of love has shone over us, the clouds have passed away,
And left us in the glory of summer's perfect day.

This old world is a bright world; the music on the breeze
That wafts a song of welcome through the waving trees;

The scene is grand in grandeur, the ripple of the rills,
Proclaim aloud the message along the verdant hills.

This old world is a bright world; the town is a picture through

the windows of a restaurant and lost his fingers. To make him comfortable, he carried the iron railing and swing around, striking his head with such force against the cement wall that he died in a few hours.

Thomas Drinan of Almaden met death in a peculiar manner. He started down the steps into a restaurant and lost his fingers. To make him comfortable, he carried the iron railing and swing around, striking his head with such force against the cement wall that he died in a few hours.

An awkward incident occurred at the conclusion of a florist wedding anniversary. The bridegroom, an official of Murphy and Devery, will be off in a twinkling. And it may safely be predicted that many another evildoer will be cast out and that a prodigious quantity of gold will be disbursed will shot into dust heaps.—*New York Tribune*.

Would Suit Some Better.

It is doubtless true that President Roosevelt would have better commended himself to the good graces of some Southerners if he had helped to lynch a negro instead of dining with them as a regular student and playing with it.

The Political Garbage Box.

Mr. Low has already told us that if he chose to make the official enemies who is a comparatively new resident of the town was called upon for a few weeks, and took occasion to speak of the sanctity of marriage and the fidelity of the matrimony, which was their first loves through better or worse, long enough to have wedding anniversaries to celebrate. When he finished, his wife accused him of stupidities.

"What's the matter?" asked.

"Don't you know?" she demanded.

"That our host was twice and his wife once divorced before they met each other."

No, he had not known that.

May: Oh! Well, I suppose he meant that you seemed to have that opinion of yourself when you used his eyes as a mirror.—*Philadelphia Bulletin*.

Another Question.

Paw: I just saw you pass a penny without turning your head to pick it up.

Tommy: I'm not nearly so poor as you.

Ostend: But paw, didn't you once say that you must never let money turn your head?

Shoe: D-did the other girls all refuse you?

Uncle George: Easiest thing in the world, Hilda. Go upon the stage, and when you retire, after twenty-five or thirty years, you'll be a famous actress.

Mr. DONOHOO TALKS ON BOOKER WASHINGTON.

VIEWED VIEWS OF A LOS ANGELES COLORED WOMAN.

The Wife of a Methodist Preacher and Noted in Methodist Church for Her Eloquence and Readiness of Speech.

The Booker Washington Incident is the subject of considerable talk among colored people in Los Angeles, because of the denunciations of President Roosevelt coming from the southern press.

Washington is a smart young man and is the leader of our race, and such is deserving of whatever recognition he may receive.

President Roosevelt may

give him, but I do not

think that you will be repaid.

Take a picture when you are

somebody. Get action.

That's the end of all over.

We have given up when we parted

from him at Montauk Point.

Do you know that even the camp where we were staying?

I can hear his voice now as he did then:

"Remember me to all the world tomorrow."

A RESTING GAMBLERS IN SANTA ANA.

POLICE TAKE IN JOINTISTS ON CHARGE OF VAGRANCY.

One Pleads Guilty, but Others Will Fight—Dues on an Ex-Mayor's Previews—W. S. Ritchie Drops Dead Just After Dinner.

SANTA ANA, Oct. 23.—[From The Times' Resident Correspondent.] Three more gamblers were arrested in this city late yesterday afternoon and taken to the Justice Court on the charge of vagrancy. John Landers weakens and pleaded guilty to the charge. He appeared very anxious to get out of the scrape and promised to go to work at his trade as a mechanic and earn honest living. The court presumably took him below at his word and let him off with a fine of \$10, which was paid. The others, Robert Cunningham and Charles Clapp, were obdurate and did not take kindly to the charge of vagrancy. To prove, presumably, that they were not vagrants, they each displayed considerable money in putting up their bonds for appearance for trial, for both pleaded not guilty and have retained counsel. They have been operating in the brick building in the middle of the block on the north side of Fourth street, between Broadway and West streets, owned by ex-Mayor John A. Cox. It has been the front of the lower door rented for a saloon, and these games have been run in the rear of the bar and in the rooms on the second floor.

It appears that the gambling business in this city will have to be handled by the Board of Trustees by passing an ordinance similar to that recently passed in Los Angeles, which makes no provision to set up this class of objectionable residents except for vagrancy, and there are doubts as to the merits of this method when the question is taken into the courts. The officers had assistance from the Trustees, and it is

not improbable that this help will be given them.

CITIZEN DROPS DEAD.

W. S. Ritchie, a prominent rancher residing near this city, dropped dead at noon today just after leaving the dinner table. He had not complained previously and was apparently in the prime of life. He leaves a widow and grown daughter. His wife was evidently the cause of his death.

SCHOOL ATTENDANCE.

At a meeting of the Board of Education last evening a report on the attendance, courses of study and outlines of work for the various schools was submitted by the superintendent. The report shows the official attendance as follows: High school, 261; central primary, 115; First-street school, 302; West End school, 200; East End school, 125. The total enrollment is 500. The total increase of fifty-six over the initial enrollment at the beginning of the school year.

He did not convince Folsom that he was not qualified to teach him, however, and the school board accepted his application.

PASADENA NEGRO
MUST STAND TRIAL

MC LAUGHLIN BOUND OVER TO SUPERIOR COURT.

Memorial Innovation of Tournament of Rose Association—Shoeshop Burglar—Helen Calis—Bridge of Sighs Against Writers of Objectionable Letters.

PASADENA Office of The Times, No. 109 North Raymond Avenue, Oct. 23.—The Times' Resident Correspondent, John McLaughlin, has been bound over to stand trial in the Superior Court for assaulting Roland McLaughlin with a deadly weapon. In default of trial, the prisoner was removed to the County Jail to await trial.

John McLaughlin remarked that he had been with McLaughlin and perhaps like to free him, for McLaughlin had no right to interfere with his business. But the evidence demanded that he be held.

Deputy District Attorney appeared for the prosecution.

Mr. W. C. Ladd for the defense.

The colors folks have disgraced the flag for the Ruth Brown Thompson benefit in the auditorium tomorrow night. A chicken dinner will be one of the hits and the managers say that the money will be used in a fashion entirely open to criticism.

There will be a mass meeting under the auspices of the Y.M.C.A. tomorrow evening at the Presbyterian Church, addressed by Rev. Hugh K. Walker. It is also the annual election of the association.

Word had been received of the accidental asphyxiation of Joseph Barret in San Francisco. He was formerly a winter employee here and now resides on North Marengo Avenue.

Henry Ramel returned today from the Tuolumne River country, where he has been surveying for Hydroelectric Lippincott's water system for San Francisco.

Mr. and Mrs. Robert H. Gaylord have returned from an extended eastern trip.

For sale—Selling out fifty head of large young mules and thirty head draft horses; also harness, chain and stretchers. Geo. W. Griffiths, between Covina and Puente.

Nothing so tempting as Heiser's candies.

Artist's materials at Wadsworth's. Herrick sells Columbia bicycles.

POMONA.

Lived two days after being shot. White is the man who has been charged with his death, but could not get any particulars. Fuller details have been requested.

Charles Knapp complained of the service at the New York Kitchen to day, and was slyed to a more abusive language to a colored waiter. The waiter waited till he got outdoors and then chastised him with a teacup. A rough and tumble fight followed.

DRIVEN HOME BY SNOW.

POMONA, Oct. 23.—[From The Times' Resident Correspondent.] A. A. Bent today purchased the remains of the Depot Livery Stables from Ben M. Polk, who will remove to Los Angeles.

William McCormick, the "Riverside whistler," gave an entertainment at the opera house Tuesday evening, which was largely attended.

R. M. Slipp was returned from an eastern trip, his stay having been cut short by the snow storm which occurred in New York City.

The most determined attempt at wholesale jail delivery which has occurred in this city in years was discovered and frustrated at the City Jail through the vigilance of Jailer John Shand. Six hack-saw blades of the theft made and a frame to fit them were found in the jail. Two prisoners saved the bars of a rear window nearly through. In a cell a woman charged with being implicated in the plot; and the detectives, who in catching her did a good piece of work, assert that they can prove positively that she purchased the saws.

The prisoner whose release was sought is Alejandro Hernandez, serving a life sentence for parricidium.

He had been other wise implicated in the plot and intended to take with him in his escape Charles Mingold, who has a year to serve, and George Smith, another petty-larceny thief.

Had the plot been successful these three prisoners and a half a dozen others would have been set free.

Hernandez was arrested several months ago for shoplifting. He is a member of the notorious gang which operated in this city and in Ventura and Santa Barbara counties. Members of the gang, gathered from various jails of various parts of the State and several of them are in the penitentiary. It was one of the most desperate gang of petty thieves that the State ever had. Hernandez had been dealing with and Hernandez is believed to be one of the worst of the worst.

The attempt to break jail was made during a recent disturbance of the officers to catch the person who had supplied the saws, the matter was kept secret until the arrest of the woman. In the meantime, however, the prisoners were not permitted to communicate with friends on the outside, and their confederates had no means of knowing that the plot had been discovered.

Hernandez had been employed in the kitchen of the jail and has been assisted there by Mingold and Smith. At times there were half a dozen other prisoners in the kitchen, none of whom knew of the plot it has not been discovered. Something of the manner of the men led Jailer Shand to become suspicious, and after the release of the woman he went to the kitchen and made a cursory examination. He did not suspect what had really happened; but after entering the kitchen he happened to go to the window and then under the eaves he discovered some new iron filings.

Knowing at once what this meant, he quickly examined the bars and found several new iron filings.

The bars made in the iron by the saws had been filled with soap.

Shand knew who had been in the kitchen while Hernandez and Smith, he had gone to Madrid, and of course knew to have been there, he first asked him where Hernandez was, and was told that he was on his cot in his cell. Then the Jailer demanded that he be allowed to see the bars with which the bars had been cut. It was a chance shot; for then he did not know that Mingold had been implicated in the plot. The Jailer was then told that the officer was firm, and believing that everything was known, Mingold reached under the stove and drew out the saws.

THE CITY IN BRIEF.

AT THE THEATERS.
LOS ANGELES—Theors.
BURMESEUM—The Last
OPHEUM—Vanderbilt.

NEWS AND BUSINESS.

Clergy See Sights.

About thirty of the Episcopal ministers who are still in Southern California made the trip up Mt. Lowe yesterday.

Stove Exploded.

An alarm of fire was sounded at 1:30 o'clock yesterday afternoon for a fire in the residence at No. 322 Boyd street. A gas stove had exploded and set fire to the building. The flames were extinguished with little loss.

Blank Fell on Him.

P. H. Sloan of No. 23 West First street was painfully injured yesterday morning on Spring street between First and Second. He was working under a scaffolding erected for some work on a building, when a scalding fell, striking his right ankle and almost breaking the bone. He was taken to the Receiving Hospital, where the wound was dressed. The injury will cripple him.

The Passenger Agents.

The meeting of the Passenger Agents Association to the plains of Los Angeles November 12 is likely to be very largely attended. The expectations at first were that five cars would be needed out of Chicago. Last week the requirements were six cars, but now it is known that there will be demand on eight Pullman sleepers. This indicates an attendance of over two hundred people.

Y.M.C.A. Leader.

Frank W. Smith, one of the prominent leaders of the Y.M.C.A. will be in Los Angeles next Saturday and will speak at the men's meeting in the afternoon at 3 o'clock. Mr. Smith was a prisoner at Andersonville in the Civil War, and during the Spanish-American War did Y.M.C.A. work in the army camp in Florida. He is said to be an exceedingly eloquent speaker.

Known Better Now.

The next time Carl Cornelius visits the "crib" district he will be more careful to look out for his possessions. He lives at the First Street Hotel, and last night he was so anxious to get away from the police that a woman had robbed him of \$12.75. At first he said he did not know how the robbery had been committed, but finally admitted that the woman had broken into his safe, getting him. The petting cost him all his cash, for his money was not recovered.

MARRIAGE ADDRESSES.

The following marriage licenses were issued yesterday from the office of the Clerk of the County Court:

Clarence W. Cook, aged 24, a native of Iowa, and Harriet F. Cristy, aged 22, a native of Illinois; both residents of Los Angeles.

John Evans, aged 22, a native of St. Louis, and Minnie Berry, aged 22, a native of Missouri; both residents of Los Angeles.

Harry J. Guin, aged 21, a native of Kansas, and Anna M. Allen, aged 19, a native of Pennsylvania, and a resident of Pasadena.

Jean Sartchuk, aged 22, a native of Poland, and Luis Llorente, aged 20, a native of Mexico; both residents of Lang Station.

Ward K. Haines, aged 24, a native of Pennsylvania, and Grace Bagley, aged 21, a native of Illinois; both residents of Los Angeles.

STILL ANOTHER BIG SALE.

One Hundred and Twenty-five Thousand Dollars Paid for Land.

Negotiations have been pending for some days between Mark G. Jones, as the representative of Mrs. Doria Jones, and P. W. Powers, for himself and associates, who are five representative business men of this city, for the purchase by the latter of the twenty-five acres of land lying between Pico and Sixteenth and Bush and Alvarado streets. Yesterday they reached a stage in which the bargain for the sale of the tract may be said to have been practically made, although the final papers in the transaction have not yet changed hands. The price to be paid for the land is \$125,000. The new owners will at once proceed to subdivide the tract. It will be cut up into 125 lots, each of which will be at least 50 feet front by 150 feet deep.

The streets of the new tract will follow the contour of the hill which skirts the land, and they will be graded, gravelled and sidewalked, and provided with sewerage drains and pipes and arranged for the convenient use of gas and electric light at the expense of Mr. Powers and his associates. Shade trees will also be planted at the expense of the recent purchasers.
